Academic Qualification

Bachelors in Information Technology

Informatics Collage Pokhara, Nepal

2023- Present

+2 Science

New Galaxy Secondary School

2020- 2022

Projects

Shopping App- Flutter-Based Mobile Application

Developed a cross-platform shopping app using Flutter with features like product browsing, cart management, and order placement. Focused on a responsive, user-friendly interface to enhance the overall shopping experience.

To-Do List App- Flutter-Based Mobile Application

Developed a cross-platform To-Do List app using Flutter, implementing features like task creation, editing and status tracking with efficient state management

DainikNews- News Portal Website

Built a Laravel-based news portal with CRUD for articles, categories, and users, featuring an admin panel and responsive interface for efficient content management.

Radiography Image Classifier

Developed a deep learning-based image classification system using Tensor Flow to detect and classify radiography images. Implemented a CNN model for accurate diagnosis, focusing on efficiency and reliable medical image analysis. (<https://aisquad-4.vercel.app/>)

Grab and Go-Online Food Ordering System

Developed a JSP-based food ordering system using JSP, Servlets, JDBC, HTML, CSS, JavaScript, and MySQL, with features for online ordering, quick pickups, and an admin panel for managing menus, categories, and orders.

Drought Prediction System

Developed a machine learning-based system to analyze environmental data and forecast drought conditions. Implemented AI-driven models to provide early warnings, enabling proactive water management and resource planning.

Promptly – AI-assisted Social Media Caption Generator

Web app integrating Google Gemini AI to generate creative social media captions with emojis, hashtags, voice input, and history tracking.

Printer Palace – E-commerce Website

Developed an e-commerce website using HTML, CSS, and JavaScript for printers and accessories, featuring a responsive design, detailed product listings, and interactive user experience.

Professional Experiences

Intern, Nobel Internship Program

Apr 2025 – Sep 2025

- Learned internet troubleshooting, web design, and presentation skills.
- Developed leadership, teamwork, and networking abilities.
- Participated in projects with an international community.

Data Analyst Intern, Excerelate

Jul 2025 – Sep2025

- Developed dashboards and reports using LookerStudio.
- Analyzed data to extract actionable business insights.
- Cleaned and transformed data using PostgreSQL.
- Created visualizations to communicate findings effectively.

Laravel Full Stack Intern, CodeIT AppsWare

Aug 2025 – Present

- Developing and maintaining modern web applications using Laravel and PHP.
- Building RESTful APIs and streamlining backend workflows for efficiency and scalability.
- Collaborating with cross-functional teams to deliver robust, high-performing solutions.

Skills

Technical Skills:

- **Programming & Web Development:** Flutter, Laravel, Filament, Java, Python, HTML, CSS, JavaScript
- **Databases & Data Handling:** MySQL, PostgreSQL, JDBC
- **Data Analysis & Visualization:** Python, Pandas, Matplotlib, MS Excel, Looker Studio
- **Machine Learning & AI:** TensorFlow, CNN, AI integration
- **Tools & Platforms:** VS Code, Android Studio, IntelliJ, Eclipse IDE, Git/GitHub

Other Skills:

- UI/UX Design, Responsive Web Design
- Quality Assurance
- RESTful API Development
- Data Cleaning, Transformation & Reporting
- Project Planning & Collaboration
- Presentation & Communication Skills
- Problem-Solving & Critical Thinking
- Time Management & Teamwork

Trainings and Certifications:

- **Introduction to Flutter Course (Simplilearn SkillUp)** – Completed an online certification program focused on Flutter framework fundamentals, gaining hands-on experience in building cross-platform mobile applications using Dart and Flutter UI components.
- **PHP and MySQL — Building Dynamic Web Applications (Codynn)** – Successfully completed a certification program focused on developing dynamic web applications using PHP and MySQL, gaining expertise in back-end logic, database interaction, and creating robust, data-driven websites.
- **Understanding Machine Learning (DataCamp)** – Completed training on the fundamentals of Machine Learning (ML) concepts.
- **Deploying and Evaluating GenAI Apps (MongoDB Badge Path)** – Completed a certification program on deploying generative AI applications and evaluating their performance and real-world impact, gaining skills to build robust and effective AI solutions.
- **Personality Development, Social Media Management & Computer Training** – 2-week certified program by Pokhara Metropolitan City on personality growth, social media management, and computer skills.
- **Game Development Special Session** – Hands-on training on game design principles, organized by Yarsa Academy in collaboration with Technology Channel and Yarsa Games.

Additional Information

Hackathon Participation:

- Participated in **Bolt.new Hackathon**, **Adobe Express Add-on Hackathon**, and **AI x City Climate Action Hackathon**, collaborating with teams to develop innovative solutions under tight deadlines.
- Gained hands-on experience in problem-solving, rapid prototyping, and AI integration, while presenting functional project prototypes to judges.

Languages:

- Nepali (Native tongue)
- English (Fluent reading, writing, and speaking)
- Hindi (Can communicate)
